

## NoteCharge 6 Ports, USB-C

20 watts available per USB-C port - in average

### NoteCharge USB-C 6 charging solution with 6 ports.

The perfect "charging hub" for use during breaks at schools, meeting breaks or similar situations, where you want fast charging of devices that require up to 20W USB-C charger capacity.

Up to 6 devices receive fast charging via 6 x USB-C ports at once – all depending on the charging capacity needs per device. These devices will typically be tablets, iPads, and similar size devices which have been used for playing movies, YouTube clips or made other power-intensive things such as online meetings for a relatively long time at the beginning of the school or office day. To last with enough power for the rest of the day these devices can get a quick charge with the NoteCharge USB-C 6 charging station.

## NoteCharge 6 Ports, USB-C Solutions

• NoteCharge 6 Ports, USB-C charging electronics ensure intelligent charging of the batteries. The charging electronics support intelligent PD standards in USB charging where the charger communicates with the devices and protects them from over-charging which optimize battery life. For example, charging stops when the devices' batteries are fully charged.

• The 6 x USB-C ports deliver maximum 20 watts per port in average when all 6 ports are in use at the same time.

• NoteCharge can be used separately or integrated in our NoteCase, NoteCart, NoteBox and NoteBag.

### DEVICES

Tablets, iPads and similar devices with USB-C plugs. However, also capable of charging 1-2 laptops or Chromebooks at the same time.

### VARIANTS

1) NoteCharge 5 Ports, USB-A&C (Schuko plug), 30 W intelligent power delivery

2) NoteCharge 10 Ports, USB-C (Schuko plug), 65 W intelligent power delivery

### ACCESSORIES

Cables (Contact LEBA for more information)

1. NoteCharge 6 Ports with 6 x USB-C ports ready for charging.
2. NoteCharge 6 Ports seen from above. There will be light in the lamp to the right from the USB-C ports when the charger is on.
3. A NoteBox with several NoteCharge 6 incorporated as a bundled solution.
4. Partly back- and frontside of NoteCharge 6 Ports, USB-C charger.
5. NoteCharge 6 Ports with 6 x USB-C ports and cables ready for charging. Cables are add-ons which must be ordered separately.

# NoteCharge 6 Ports, USB-C

## Technical specifications

Part Number: NCHAR-UC6-20W-SC

### EXTERIOR DIMENSIONS

Width	200 mm
Depth	66 mm
Height	22 mm

WEIGHT 0,28 kg

CONNECTING CABLE 1,5 metre Input C7 connect standard Schuko

USB-C OUTPUT \* DC5V/9V/12V/15V3A/20V5A  
20W each port in average when all 6 ports in use at the same time. Up to 90W on one port and 120W totally on all 6 ports when in use at the same time.  
PD 3.0 USB-C power supply 3.0

DISPOSAL According to local standards

SECURITY Overcurrent  
Over-voltage  
Short circuit protection  
Overheat protection

VENTILATION Passive

LED INDICATOR ON/OFF power on

ON/OFF SWITCH No

WEIGHT PACKED 0,35 kg

PACKAGING 220x135x70

**Certifications**  
CE, RoHS, FCC

**Guarantee**  
2 years on the electrical components, 5 years on the body
