

NoteSync USB-A 10

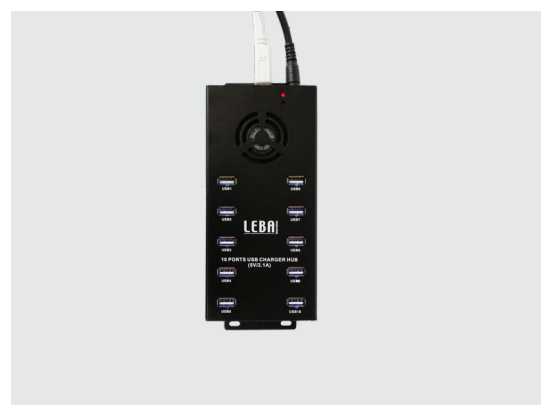

NoteSync is a synchronisation and charging solution with 10 outlets.

NoteSync can synchronise, charge and maintain up to 10 USB devices simultaneously. Charging takes place at maximum speed, which ensures fast charging and protects the device's battery.

When 10 devices are connected, NoteSync can synchronise all 10 devices simultaneously via software (not supplied).

Generally, all software used with NoteSync can support multiple devices.

NoteSync USB-A can be integrated into a wide range of our products, for example, into some NoteCases and NoteCarts.

NoteSync USB-A 10

SOLUTIONS

- Designed for synchronising and charging via USB-A of devices such as tablets, iPads and other devices with USB-A outlets.
- NoteCharge can be used independently or integrated into some of our NoteCase and NoteCart products.
- Charging occurs simultaneously with 2.1A per port.
- NoteCharge has a built-in safeguard to prevent it from overheating.

DEVICES

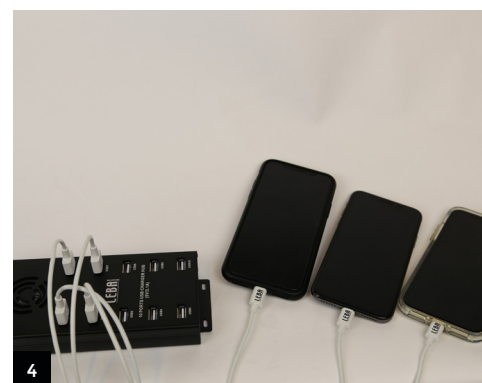

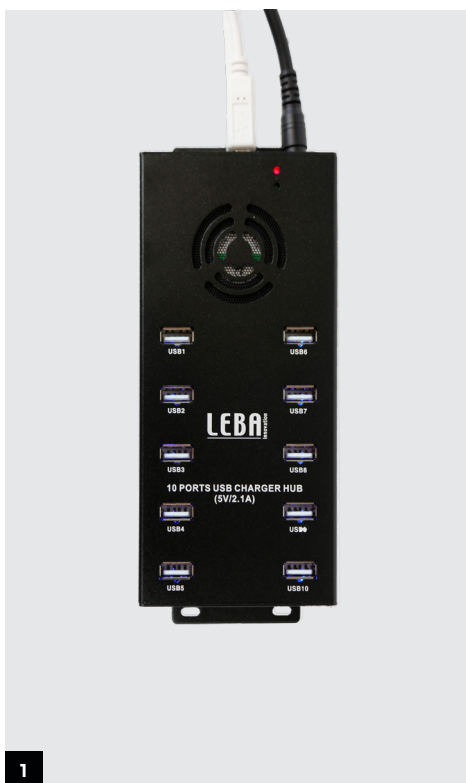

Tablets, iPads and other devices with USB-A outlet.

OPTIONAL PURCHASES

Cables (see options)
