

## NoteCart Flex Extended 36

NoteCart Flex Extended 36 is a mobile storage and charging solution for 36 units.

NoteCart Flex Extended 36 is a mobile, compact cabinet for storage and charging of iPads, tablets, laptops, Chromebooks and similar devices. The 4 wheels on the NoteCart Flex series have been carefully selected to complement the rest of the design so that NoteCart rolls easily, regardless of weight of the many devices and the type of floor under the mobile cabinet. Wheels with ball bearings and soft rubber coating which, in use, maintain and restores the rounding of the wheel.

During operation, all electronics are stored in the locked compartment behind the cabinet, so that only the IT manager has access to them. A secure cable management system ensures that the cables stay in the cabinet once they have been installed.

The main panel which divides power connectors into groups of 9, with sequential control with a 3 second time interval. This is to ensure unnecessary overloading when connected to the main switch.

## NoteCart Flex Extended 36 Solutions

- Designed for storage, charging and transport of up to 36 laptops (15.6"), Chromebooks, tablets, iPads or similar devices.
- The cabinet is sturdy and easy to transport on its rubber wheels, which have been thoroughly tested.
- Strong handles on the sides make it easy to push and move the cabinet.
- The cabinet has a cable system which ensures that the cables do not disappear and that they are stored clutter-free.
- The locks on the front and rear doors ensure that the devices are stored safely.
